 PRIMARY EXAMINER

1. The following is an examiner's statement of reasons for allowance: none of prior art of record taken alone or in combination shows a system to limit a maximum duty cycle of a PWM signal and a method therefor comprising circuitry for providing a clamp waveform based on a first reference signal, a comparator for comparing the clamp waveform to a reference waveform to provide a limiting signal, the reference waveform being based on a second reference signal such that the limiting signal has a duty cycle related to the first and second reference signals, whereby application of the limiting signal to the PWM signal limits the PWM signal to within a maximum duty cycle and more detailed elements as recited in the claims of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew V. Nguyen whose telephone number is (571) 272-2081.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-2800.
